Hubitat

ELEVATE YOUR ENVIRONMENT

Hubitat Elevation™ is a home automation solution for technically savvy people who want to 'elevate' their homes on their own terms. We put **you** in control. Add your devices to the Hubitat Elevation platform, then you decide how and when you want them to work. Create your ideal environment with very simple or sophisticated rules. When you choose Hubitat™, you join a smart, innovative community of like-minded early adopters where support and best practices are just a click away.

Fast!
Eliminate the latency of cloud dependence. No waiting for your device to turn on.

Reliable
Your devices work, on your terms, even when the internet does not.

Private
Keep local control of your device data, (not stored in the cloud).

Automate any Device
You're in control, limited only by your imagination.

Compatible
Zigbee, Z-Wave, Lutron, LAN and cloud-connected devices.

Ongoing Support

Hubitat Elevation™

Hubitat Elevation™ was built from the ground up to be the best home automation platform on the market. Automations fire at near real time when controlling your local devices. The Zigbee and Z-Wave stacks take advantage of multicast messaging and many other advanced features that most smart hubs simply do not have.
